## INVOICE

Check indoor system air filters clear

Check thermostat it's set to Celsius and not calling for Cooling

Put thermostat back on Fahrenheit  
Set it to call for Cooling checked system performance

This is a 4 ton system for a 900 square-foot home

There's gonna be a lot of humidity control issues. System is just too oversized for the home. Ultimate solution would be to come in with a proper size AC in furnace.

Services	qty	unit price	amount
Residential Repair Service - Diagnostic service call-Res Service call fee and diagnostic	1.0	\$89.00	\$89.00

Subtotal \$89.00

**Job Total \$89.00**
